

25 Essential Windows Home Server Projects

25 Essential Windows Home Server Projects is We Got Served's must-have guide to getting the most from Microsoft's Windows Home Server platform. Written for both Windows Home Server v1 and WHS 2011 users, 25 Essential Windows Home Server Projects is the product of months of research into thousands of We Got Served features, product reviews, reader comments and forum posts to select and then create a series of 25 comprehensive, but easy to follow project walkthroughs for the popular home server operating system. Written by trusted home server experts Terry Walsh and Jim Clark, 25 Essential Windows Home Server Projects is the perfect next step for anyone who has mastered the basics of working with Windows Home Server and is seeking to do more with the product. Illustrated with hundreds of screenshots, the eBook walks through topics such as CD, DVD and Blu-ray ripping, creation of media libraries, automatic metadata collation and management, Windows Home Server support for Bittorrent and SABnzbd download clients, media streaming to remote devices, TV recording and archiving, remote backup, smartphone/tablet integration and much more. Spread over 650 A4 pages (in the PDF Edition, ePub pagination varies by device) the full list of projects for WHS v1 & 2011 novices and experts alike includes:

1. Run a Windows Home Server Application as a Service
2. Create a Windows Home Server Powered DVR
3. Use Windows Home Server as a File Downloader with SABnzbd
4. Add Print Server Features to Windows Home Server
5. Share Your Printer With Devices Across the Network
6. Install a BitTorrent Client
7. Install PHP and MySQL on Windows Home Server
