

Adobe Flex 3: Training from the Source

Part of the Adobe Training from the Source series, the official curriculum from Adobe, developed by experienced trainers. Using project-based tutorials, this book/CD volume is designed to teach the techniques needed to create sophisticated, professional-level projects. Each book includes a CD that contains all the files used in the lessons, plus completed projects for comparison. In the course of the book, the reader will build several Web applications using Flex Builder incorporating MXML and ActionScript 3.0. This title covers the component framework for Rich Internet Applications, Adobe Flex 3.0. New Flex 3 features covered in this edition are: the advanced DataGrid, Data Connectivity Wizards, Modularizing the Flex application, and options for deploying your Flex project with AIR (Adobe Integrated Runtime).
