

## Advanced Golf: Steps to Success (Steps to Success Activity Series)

In this second-level golf manual, intermediate to advanced golfers take 14 additional steps to advanced golf success. This skill-progression helps readers learn advanced swing techniques and strategies for controlling ball flight, as well as controlling attention and anxiety during competition. With the help of this book readers should develop the skills necessary to become a low-handicap golfer, including drawing and fading the ball, options for sand play, off-green putting, and variations in pitch shots. Readers should also gain insights into playing in the wind and rain, reading greens, hitting from behind obstacles and under trees, enjoying various playing formats (scrambles, best ball, etc), and calculating a handicap.
