Army Medic, Private Michael Crest, is quite content in his life with the exception of one thing: he is in need of a good man and has his sights set on another medic, Specialist Jared Prophet. The problem? Jared is in deep denial about his sexuality. After an unexpected, erotic exchange, Jared decides his only recourse is to distance himself from Michael and plans a trip to his family's lake-house with friends, which would have worked, if one of his friends hadn't invited Michael to tag along. As a tropical storm hits the Texas Gulf Coast, the two men give into unbridled passion. But more than the weather gets rough when the storm passes and Jared learns his parents are among the missing. Can the lovers endure the fallout or will unearthed truths prove more devastating than any natural disaster? After all, just because they aren't gonna ask, doesn't mean they want you to tell.
