

Vibrational Raindrop Technique

Raindrop Technique is an anointing protocol applying nine different essential oils to the feet and back. The technique was originated by D. Gary Young in 1991 and is taught throughout the world. The only oils to use to do a valid Raindrop Procedure are those sold by Young Living Essential Oils. The blends used are all proprietary and distributed only by Young Living. The nine essential oils for a Classic Raindrop are Valor, Oregano, Thyme, Basil, Wintergreen, Marjoran, Cypress, Peppermint, and Aroma Seiz. A massage oil called Ortho Ease, is also applied. The procedure take about one hour. Vibrational Raindrop is based on original raindrop plus the application of tuning forks in pairs at various points on the body during the procedure. While raindrop works very well alone, the addition of mechanical vibrations of specific frequencies greatly enhances the healing benefits and results in therapeutic results not obtaining with the oils alone. The book outlines ten variations of Vibrational Raindrop each with different sets of tuning forks and with some variations in the specific oils applied. The ten versions of Vibrational Raindrop are as follows: Classic, Brain, Colon/Digestion, Heart/Circulation, Female Hormones, Male Hormones, Joints/Bones, Liver, Lungs, and Longevity.

Vibrational Raindrop Technique was born thanks to the collaboration of Gary Young, developer of Raindrop technique and the works done by ChristiAromaSounds leads the field of Sound, Light and Vibrational healing by Meet our Raindrop Harmonics and Vibrational Raindrop Technique Instructors! - 4 min - Uploaded by wakuwaku888Raindrop Technique by Gary Young - Duration: 6:03.
