

Flash CS3 Professional Essential Training

In Flash CS3 Professional Essential Training, instructor Rich Shupe delves into the key aspects of working with Flash CS3 to create professional animations, design interactive websites, and incorporate audio and video into self-contained presentations. The training covers using the drawing and color tools, mastering the essentials of animation, and working with type, graphics, sound, and video. Rich also introduces the essentials of working with ActionScript 3.0. Exercise files accompany the tutorials. Topics Include: Customizing the Flash CS3 workspace Drawing with pencil and line tools Using the color mixer Nesting and breaking apart symbols Adding, deleting, and grouping layers Testing and publishing files Importing images and image compression Tweening gradients Controlling text appearance Using filters and blend modes Adding sound and video Introducing ActionScript 3.0 Duration: 8 hours On 2 CD-ROMs
