

IEC 60335-2-34 Ed. 4.0 en:2002, Household and similar electrical appliances - Safety - Part 2-34: Particular requirements for motor-compressors

Deals with the safety of sealed (hermetic and semi-hermetic type) motor-compressors, their protection and control systems, if any, which are intended for use in equipment for household and similar purposes. The rated voltage being not more than 250 V for single-phase and 480 V for other motor-compressors. Some examples of equipment which contain motor-compressors are refrigerators, food freezers, ice makers, air-conditioners, electric heat pumps and dehumidifiers.
