Preppers Survival Pantry. What if the worst should happen? In the modern world we are increasingly reliant on external systems to support our way of life electricity to power our homes, the internet to supply information, clean water piped directly into our homes and a culture of disposability and convenience that encourages us to simply buy what we need when we need it. If a crisis should disrupt these systems, either temporarily or long-term, would you know what to do to ensure the best chances of health and survival for your household? In this book we will look at both short and long-term strategies for dealing with disruption to vital services: We will look together at preparations you can make in advance to safeguard yourself before a catastrophe, as well as discussing actions to take in the moment, whether you have had time to prepare or not. Many people have survived life-or-death situations due to their own quick thinking and repurposing of the materials they had to hand. Together we can go through some simple, practical and effective steps that will give you the best possible chance of coming through a catastrophe. Book #2: Survival Guide: Essentials You Have To Know, To Survive A Disaster: Learn How To Store Food And Water And Live Without Electricity And Gas.
