

# I Thought You Were On Vacation! A First Lesbian Sex Erotica Story

I thought I had the apartment all to myself, so I was relaxing nude on the sofa and enjoying a lazy afternoon. I dozed off and fell into a wonderful dream, a sexy dream. Boy was I surprised to discover it wasn't just a dream! When I woke up my roommate was there, and I was right in the middle of my first lesbian experience! Warning: This ebook contains very explicit descriptions of sexual activity and includes first lesbian sex, lesbian seduction, oral sex, mutual masturbation, and more. Only mature adults who won't find that offensive should read this story. Here is a preview: I was right in the middle of the dream that bizarrely included orange rabbits and dancing cows when suddenly I felt a mouth licking at my clit. It was amazing actually. I could feel it working over my pussy, and I thought it had to be the absolute best dream I'd ever had. I felt a hand too, reaching around my thigh and rubbing at my stomach as the tongue worked, and another hand clenching one of my hands, squeezing it. It was amazing, and I moaned and I moved my hips, and it was only then that I realized it was real. I opened my eyes in shock and saw that Angela was right between my legs. I looked down at her soft brown hair and her beautiful eyes, which were opened wide as she stared up at me. I was in utter shock; I'd never been with another woman before, although I suppose I'd fantasized about it. I didn't understand why she was even in the apartment because I thought she'd be gone. She licked with absolutely no less urgency than she had before I knew it was real, before I'd woken up. She held my hand as she had before, and she just continued to explore my folds and my clit with her tongue. I couldn't say anything, I just moaned as I stared at her. Her mouth was incredible. I reached down and when I did, I intended to push her away and ask what the hell she was doing. But instead I found myself doing something entirely different.

When I felt her head on the palm of my hand, I ended up just stroking her hair and moaning. I think I might had even breathed out an Oh, yes! or something along those lines.
