

## Lost Abbey

All sisters fight, but not all sister fights threaten the family with total destruction. Susannah Hill, the youngest maid at Oldbourne Manor in 1610, knows her sister is wrong to sneak out at night. But she isn't ready for what she discovers when she spies on Mary, her beloved older sister, courting by moonlight. Mary's suitor brings a gift, and Mary keeps it secret. Unable to curb her curiosity, Susannah soon finds Mary is hiding a Holy Bible, freshly printed in English. This is fine - and legal - in Protestant England, but at Oldbourne, recusant Catholics keep their ancestors' faith against the law. Mary has privately turned Protestant. Will she give away their secret, a secret so dangerous that it could lead to the grisly death reserved for traitors? Would Mary even endanger the life of the little sister she has nurtured since their mother died in childbirth? Will Susannah have to choose between her faith and her family?
