

People like to Skydive for fun!: Because Its fun and Its exhilarating

There's a rush and a thrill to feel yourself falling to the earth. There's also something special about that sensation of flying, since for many years people have wanted to be able to fly like the birds. Skydiving is one of the few ways that you can feel as if you are flying, without being in an airplane or a helicopter. Although most people think that it is a dangerous sport, with the right training and preparation it's just as safe as any other sport. It's only dangerous when people take unnecessary risks and don't follow the proper procedures. Ground training lasts for about 30 minutes, but once the ground training is over, you will be jumping out of an airplane. This sounds scary, but remember that you are going to be strapped to an instructor and you are going to be safe.

fun run. My next challenge is going to be a skydive what will yours be? .. Its incredibly flexible choose your distance of. 25k, 50k or 100k So here are Some reasons why people like to Skydive. 1.
